

Youth Exchange

“Ctrl + Find Your Digital Self”

October 2–9

Markutiškės, Lithuania

Description

In a world where our screens shape how we live, learn, and connect, it's easy to feel overwhelmed—and even controlled—by the digital world. We spend so much time online, yet most of us barely understand how it truly works or how to stay in control of it.

Let's explore the digital reality we all live in. Over the course of this project, you'll dive into the three key roles of media—information, education, and entertainment—while developing essential skills like critical thinking, self-awareness, and self-organization.

Through hands-on activities, creative expression, and virtual collaboration, you'll learn how to use digital platforms more mindfully and confidently. This is your chance to become not just a digital consumer, but a conscious, empowered participant in the online world.

Join us and take back control of your digital life—one skill at a time.
